## AGRICULTURAL MEETING.

A preliminary meeting of the citizens of Rome county having been held on the 25th of February, for the purpose of forming an Agricultural Society, and having adjourned over until the 25th inst., for the purpose of securing a more general attendance, accordingly a meeting was held in Louon, on Saturday the 25th inst., for the purpose of adopting a Constitution, and electing the necessary officers.

On motion ALBERT S. LENOIR, Esq., was called to the Chair, and JOHN W. O'BRIEN, requested to act as Secretary.

JAMES S. ROBINSON, Chairman of committee appointed at previous meeting to draw up a Constitution for the government of the Society, submitting the form of a Constitution, which was adopted by a vote upon each section.

Elections of officers were then held with the following results:

ALBERT S. LENOIR, President.  
W. F. BROWN, Vice Presidents.  
GEORGE GALLAGHER, Vice Presidents.  
Wm. BEAL, Corresponding Secretary.  
Dr. W. R. HURLEY, Recording Secretary.  
Wm. T. LOWE, Treasurer.

On motion, the Society then adjourned to meet the first Saturday in April, that being the first regular meeting. It is hoped that a large number will be present for the purpose of joining, as all are most cordially invited.

A. S. LENOIR, Cham'n.  
JOHN W. O'BRIEN, Sec'y.

We notice in the *Maryville Advertiser* of the 23d, that the people of Blount are beginning to feel the importance of having a good road from Louisville to Maryville.

A reward of 10 cents is offered by the *Greenville Spy*, for the precise result of the late Congressional election in the First District. Hunt it up.

We learn from the *Chattanooga Advertiser*, that on Sunday last, the passenger train on the Nashville and Chattanooga Railroad ran over and instantly killed a negro who was riding a mule on the track, near Altonia. Every effort was used by the Conductors on the road to prevent the accident.

THE DEMOCRAT, published at Jonesborough, comes to us this week. It is a "No. 1 and Vol. 1" little paper, neatly gotten up by "Cramp" H. Bean & Co. Long may she kick; and may her conductors never be cramped beyond what a newspaper publisher can expand under.

Punch says that the reason why editors are apt to have their manners spoiled is because they receive from one correspondent and another a vast number of evil communications.

IMPORTANT INTELLIGENCE FROM GREECE—WARLIKE EXCITEMENT AT ATHENS.

ATHENS, GREECE, Thursday, Feb. 6.  
For some time past, ever since the trouble between Russia and Turkey, parts of the latter country bordering on the Adriatic have been very restless and troublesome.

Last week news was received here that they had on the preceding Sabbath broken out in open rebellion, in one of the towns; and since then, time has spread so rapidly that large portions of western Turkey in Europe are banding together to throw off the allegiance of the Sultan. For a long time, as is well known, Greece has been in league with Russia, their common religion being the ground of union between them, and since the war broke out the old feeling of hatred against the Turks has strengthened this union; and news of victory on the part of the Russians has been as eagerly looked for in Athens as in St. Petersburg.

The Greeks have been burning to strike a blow against the Turks, and have only waited for a pretext, not in this feeling confined to the lower and uneducated classes. One of the leading professors of the University here has made himself conspicuous by his articles in the papers up to war in defence of their religion, and to free their neighbors from Turkish oppression.

Today the excitement has been extreme, and during the afternoon the students of the University here, to the number of one hundred, marched with music to the Palace, and called on the King to come out to them, with loud cries of "Long live the King." He did not appear, but one of the officers about the person came forth, and immediately they demanded permission to march against the Turks, at the same time expressing a hope and desire that he would declare war as an ally of Russia.

They are in the mean time preparing to leave the city without permission, should the King refuse their demands. It places him in a very delicate position, as it would compromise him with Western Powers, who were the means of placing him on the throne, and at the same time his popularity is not great enough with the people for him to refuse a demand which comes so directly from them. A strict neutrality would be of course far better for the country, inasmuch as it would benefit so much by the commerce of the Black Sea, should that be thrown open, as is most probable.

I have written this at the instance of Dr. King, who did not feel well enough to do it himself.  
FRIDAY MORNING.—A gentleman has just been in who says that matters are taking even a more decided turn than we had supposed.—The students of the University to a man have agreed to go and are selling books, clothes, jewelry, and everything available in order to purchase arms. And the students in the gymnasiums or preparatory schools also—in fact all the young men in Athens above sixteen. Nor are means wanting to support an army, for contributions are pouring in from all quarters from Greeks living out of the country.

One man, whose name is kept secret, has given one million drachmas (about one hundred and seventy thousand dollars), and this is only a portion of what is subscribed. They have no money, but plenty of salaries, and will immediately purchase vessels and steamers, provided the Turks are not beforehand with them. They say that the Greek Government will not be compromised, as the expedition is fitted out by Greeks living abroad. So great is the hatred toward the Turks, that the gentleman who told us this, though an old man, and Dr. King says, one of the most to be depended upon in all Athens, declared that he himself was very much excited, and did not blame the young men for the part they were playing.

Twenty-four persons on their way from California to the Atlantic States, were drowned by the upsetting of a boat in Virgin Bay, Nicaragua, on the 24th inst.

## By the Pacific.

CHARLESTON, March 23.

The *Czar* issued a manifesto on the 28th of February, denouncing France and England for sending their fleets to the Black Sea, as contrary to the usage of civilized nations. He charges them with siding with the enemies of Christianity and against Orthodox faith, and summons all Russia to arms.

On the 7th of February, two columns of the Russian army had a severe encounter in the dark mistaking each other for Turks. Several hundred were killed.

NEW YORK, March 24.  
COTTON.—The market has declined one eighth, on the middling and lower qualities the most. Sales 1600 bales.

Flour has advanced 12 1/2 cents, and there is an active speculative demand, the market closing buoyant. Sales of 11,500 barrels of State brands at \$7.37 1/2 to \$7.50; 2250 Southern at \$7.62 1/2 to \$7.85.

For Corn there is large export demand and prices are a trifle higher, and 53,000 bushels changed hands at 81 to 83 cents.

Rice Coffee, 6500 bags sold at auction for 10 1/2 to 11 1/2 cents. One hundred bags at private sale 12 cents.

BALTIMORE, March 23.  
The *Cadiz* treaty has not yet been taken up in the Senate.

The Washington Union of Friday morning, predicts an embroilment with Spain.

Sales of Flour were made today at \$7.37, and Corn at 70 cents.

CHARLESTON, March 23.  
COTTON.—Sales to-day 883 bales at \$1 to 9 1/2 cents.

We are indebted to the *Operator* of the Augusta, Atlanta and Nashville Telegraph line, in this city, for the following dispatch, dated, NEW ORLEANS, March 24.

COTTON.—The market has been dull to-day. Sales 6,000 middling 9 to 9 1/2 cents. Stock 254,000 bales. Decrease in receipts at all the ports 922,000 bales.

Freight to Liverpool three-farthings.

LOUISVILLE, March 20.—The river continues to recede, with sufficient water on the falls for the largest class boats. P. J. Ward, with Mr. Fillmore, left for New Orleans on Saturday night.

Death of T. Devin Reilly.—Washington, D. C., March 6.—Thomas Devin Reilly, the Irish patriot and a clerk in the Land Office, died today in this city. He has been connected with John Mitchell's paper, the *United Irishman*, edited the *Irish Felo* after Mitchell's banishment, subsequently escaped to this country.

He was a principal writer of the *Democrat's Review* during the last Presidential campaign, and was the author of the celebrated article on Neutralization in the *Boston Post*, attributed to Caleb Cushing.

Prophetic.—The following remarkable passage was written twenty years ago, by the Duke of Ragusa, Marshall of France, died not long ago at Venice. It appears in his memoirs, published before the commencement of the Russo-Turkish difficulties.

"If an Anglo French Fleet passes the Dardanelles, and arrives at Constantinople—if at the same time 50,000 men of the Alliance take up their position at Adrianople, the Russian Squadron will retreat to Sebastopol and will not again venture forth; if the Caucasus, the Danube, and sends his army to the Balkans, he has to fight at once with the Turkish, French and English forces, and by supposing the non-neutrality of the Court of Vienna, he is exposed to all the dangers of an Austrian army, coming upon him from Transylvania."

This is the startling prophecy, even for a Marshall of France.

Cause of the Fertility of the Plains of Babylon.—Gypsum beds, says Mr. Williams, stretch from four hours above Mosul many miles down the river, furnishing by their yearly wash the richest possible deposit for the plains of Babylon, and fully accounting for the otherwise incredible reports of their fertility, as given us by Herodotus. For thousands of years the Tigris has annually transported this "dressing" over those regions free of charge, and were they now thoroughly irrigated, as in the days of the energetic Nebuchadnezzar, they might again be the granary of the world.

A bill has been introduced in the Ohio Legislature, excepting Christmas, New Year, the Fourth of July, and Fast days, in the acceptance of the payment of bills of exchange and notes.

MARRIED.  
On Thursday evening 23d inst., by Rev. James Johnson, Mr. J. A. A. EDWARDS, to Miss SARAH J. JOHNSON. All of London, Tennessee.

DIED.  
On Friday morning 3d inst., at 10 minutes after 2 o'clock, of Scarlet Fever, BETTIE B., daughter of M. H. and Mary M. Stephens, aged 6 months and 10 days.
